ABOUT US

“PNG 1962” Ltd.

is a leading Bulgarian manufacturer of home and interior textiles.

We specialize in home textiles as well as interior solutions for public buildings and hotels.

The introduction of new technology allows for the incorporation of customised designs for each product, marking a significant innovation in the Bulgarian market.

PNG 1962
2

The company has a modern factory on an area of 5000 m² ideally situated in Lokorsko village, in the suburbs of Sofia city. The contemporary equipment allows fast production process and high quality articles. Our new printing field supports the individuality of our business – we have the possibility to print on textile our own designs or produce custom designs for our clients. Eighty-five percent of the operations are powered by photovoltaics.

ISO STANDARDS

PNG

ISO 9001: Quality Management Systems

ISO 9001 is the international standard for quality management systems (QMS). It sets out the criteria for a QMS and is based on several quality management principles, including strong customer focus, senior management involvement, a process approach, and continuous improvement.

ISO 14001: Environmental Management Systems

ISO 14001 provides a framework for an effective environmental management system (EMS). It helps organizations improve their environmental performance through more efficient use of resources and reduction of waste.

ISO 45001: Occupational Health and Safety Management Systems

ISO 45001 provides an internationally-recognized framework for managing occupational health and safety risks. It enables organizations to systematically assess hazards and implement risk control measures, leading to reduced workplace injuries, illnesses and incidents.

ISO 50001: Energy management Systems

ISO 50001:2018 is a standard based on energy consumption analysis, the postulation of organizational energy policies, and the creation of energy management frameworks and programs that contribute to more efficient energy management.

PNG 1962
4

OEKO-TEX®

OEKO-TEX® STANDARD 100 is a label for textiles tested for harmful substances. It sets the benchmark for textile safety, from yarn to finished product. Every item bearing the STANDARD 100 label is certified as having passed safety tests for the presence of harmful substances.

TÜV NORD

Certification is carried out in accordance with the General Conditions for the Certification of Management Systems. This certificate is the written proof about the approved quality management system.

SMETA 4-PILLAR

SMETA (Sedex Members Ethical Trade Audit) is a globally recognized ethical audit method that assesses four pillars: Labor standards, health and safety, environment, and business ethics.

CERTIFICATES

MATERIALS

rPET

Recycling reduces waste and the carbon footprint while conserving natural resources. Recycled materials, such as plastic bottles and old clothes, are processed into new textile fibers, which are then used to produce clothing and accessories.

Double-Face

The use of Double-Face technology is an innovative way to combine style and functionality, while also enhancing the durability and adaptability of the products.
